

BUILT-IN OVENS PROFESSIONAL & MASTERPIECE® SERIES

MASTERPIECE® SERIES STEAM AND CONVECTION

No true cook's kitchen is truly complete without the power of steam. And no steam oven is complete without the power of convection. You'll find both in Thermador's Steam & Convection Oven. Defrost, steam, proof, bake, slow cook and reheat—the oven's performance and flexibility are unmatched. More importantly, the Steam & Convection Oven provides unrivaled taste, texture and quality. And it's healthier, too, helping your food retain more of its essential vitamins and nutrients.

PROFESSIONAL SERIES

Featuring an exquisite analog chronometer, stainless steel knobs, professional styling and unsurpassed performance, Thermador Professional® Series Ovens bring beauty and power together to create the only true professional level built-in ovens on the market. With industry-leading features like Speed Convection, Maxbroil®, a heavy-duty rotisserie, and a massive 4.7 cubic foot capacity, these ovens are built to surpass the expectations of even the most discriminating chef.

Flexibility is powerful. That's why Thermador offers completely modular Professional Series Combination Built-in Ovens. Whether you desire a convection microwave with your oven, or both an oven and warming drawer, these products make your kitchen the model of elegance and practicality.

MASTERPIECE® SERIES

The cornerstone of the passionate cook's kitchen, the Masterpiece® Series Single and Double Built-in Ovens provide 14 cooking modes, easy-to-use graphical displays and incomparable Thermador quality and design. Six cooking levels and Thermador's True Convection make it easy to cook several dishes simultaneously without any flavor transfer.

Create the ultimate culinary utopia with the exclusive Thermador Combination Oven with Convection Microwave and Warming Drawer. Whether you choose this combination or our oven and convection microwave model, these culinary tools will astound you with the convenience of their powerful integrated design, outstanding performance and simple installation with just one cutout.

PROFESSIONAL SERIES BUILT-IN OVENS

FEATURES & BENEFITS

★ MAXBROIL®

Thermador's exclusive 5,000 Watt, 12-pass broil element is the most powerful on the market, allowing you to broil even the largest dishes more evenly for perfect results every time.

SPEED CONVECTION

No preheat needed. Reduce cooking times for frozen foods up to 30% with Thermador's industry-leading Speed Convection system. Your creations are cooked evenly, perfectly and in less time than ever before.

SOFTLIGHT

Halogen theater lighting dims on and off each time you open and close the oven door to highlight yet another grand cooking performance.

3 TELESCOPIC RACKS

Up to 3 Full Access® telescopic racks glide smoothly on ball bearings, allowing them to expand completely for safe, easy access to your meal. Plus, their robust construction safely supports the heaviest dishes while integrated easy-grip handles make them easy to use.

TRUE CONVECTION

The thoughtfully engineered and perfectly executed True Convection baffle system allows hot air to flow precisely and evenly around food for perfect results and no flavor transfer.

STAR-K CERTIFIED

Thermador Built-In Ovens are Star-K certified making it possible to use them on Holy Days and the Sabbath.

★ MASSIVE CAPACITY

With 4.7 cubic feet of cooking space, the 30-inch Thermador Professional® Series Ovens are the largest on the market*. Coupled with the 12-pound heavy-duty rotisserie, these ovens can handle your grandest dinner parties.

★ HEAVY-DUTY ROTISSERIE

Thermador Professional® Built-in Ovens offer the best performing rotisserie available. With up to 12-pound capacity, it cooks large roasts and poultry evenly on all sides and cleans up easily with dishwasher-safe components.

★ SOFTCLOSE® DOOR

SoftClose hinges prevent slamming and ensure ultra smooth closing of the oven door.

★ SUPER FAST PREHEAT

Thermador's exclusive Super Fast Preheat feature preheats your oven in 7 minutes, the fastest in the industry.

★ FASTEST SELF-CLEAN

In just 2 hours, the interior walls and rack supports become perfectly clean, thanks to the fastest self-cleaning cycle on the market.

MASTERPIECE® SERIES, STEAM AND CONVECTION FEATURES & BENEFITS

HOW PIZZA SHOULD BE DONE

With the Steam & Convection Oven, pizza crust is moist on the inside, crisp on the outside—and the toppings are perfectly browned but never dry. That's dream pizza, made real.

★ BRING ON THE BIRD

Forget about getting up early on holidays. You can cook a 14-lb turkey in just 90 minutes in the oven Combination Mode. Golden on the outside. Moist on the inside. Dry turkey is a thing of the past.

★ A GOURMET'S GOURMET TOOL

If you ask a professional chef about steam, you'll quickly understand its power, especially when combined with convection. Food is crisp on the outside and moist on the inside, just like it was being served at a 5-star restaurant. No other cooking tool offers results like this.

★ CONVECTION BEYOND CONVENTION

The Steam & Convection Oven features Thermador's True Convection baffle system that directs heat to cook foods faster and more evenly than other convection systems. So while your range is busy with the main dishes, the oven's perfect for your baked goods.

SAVOR THE RESULTS

Taste trumps all. And the Steam & Convection Oven trumps all the other ovens when it comes to texture, appearance, and, of course, taste. Multiple dishes can be cooked to perfection at the same time with no flavor transfer or temperature adjustment needed. This is gourmet cooking, made easier.

HEALTHIER AND BETTER

Food tastes better and loses fewer vitamins and minerals when cooked with steam. Plus, steam helps eliminate the need to use unhealthy fats and oils. Fish, vegetables, high grain breads and baked goods—the Steam & Convection Oven makes foods that are good for you even better.

BETTER-THE-NEXT-DAY REHEATING

When properly reheated, some leftovers taste better than when they were originally served. Steam lets you reheat without losing the original dish's moistures, textures and flavors. Plated dishes and baked goods have never been so good the next day.

40 EASY COOK® PROGRAMS

From P1 for gently steamed cauliflower florets to P19 for a succulent leg of lamb, the Steam & Convection Oven's 40 pre-programmed modes automatically set oven temperature and humidity for perfect results.

★ THERMADOR EXCLUSIVE

MASTERPIECE® SERIES BUILT-IN OVENS

FEATURES & BENEFITS

★ MASSIVE CAPACITY

With 4.7 cubic feet of cooking space, the 30-inch Thermador Professional® and Masterpiece® Series Ovens are the largest on the market*, capable of handling even the largest dinner parties.

★ SUPER FAST PREHEAT

Thermador's exclusive Super Fast Preheat feature preheats your oven in 7 minutes, the fastest in the industry.

MASTERPIECE® STYLING

With a chiseled look and stainless steel finish that reflect your own impeccable taste, the Masterpiece® oven is more than an appliance. It is an inspiration.

EASY COOK®

Featuring 20 pre-programmed recipes based on food type and weight, the Easy Cook® feature is like having a sous-chef in the kitchen with you.

VARIETY OF COOKING MODES

Masterpiece® Series Ovens feature 14 advanced cooking modes as unique as the recipes you plan on creating. These include True Convection, Easy Cook® and many more, giving you the freedom to cook any way you choose.

SPEED CONVECTION

No preheat needed. Reduce cooking times for frozen foods up to 30% with Thermador's industry-leading Speed Convection system. Your creations are cooked evenly, perfectly and in less time than ever before.

SOFTLIGHT

Halogen theater lighting dims on and off each time you open and close the oven door to highlight yet another grand cooking performance.

TRUE CONVECTION

The thoughtfully engineered and perfectly executed True Convection baffle system allows hot air to flow precisely and evenly around food for perfect results and no flavor transfer.

STAR-K CERTIFIED

Thermador Built-In Ovens are Star-K certified making it possible to use them on Holy Days and the Sabbath.

MODEL OPTIONS

There are two Thermador Built-in Oven series to choose from — Professional and Masterpiece®. Each series features a distinctive style. Be sure to reference the correct model information in this design guide.

INSTALLATION CONSIDERATIONS

The information in this design guide provides key features, product dimensions, cutouts and installation specifications. Before installing a Thermador Oven, be sure to verify the cabinet dimensions and electrical connections. Also, always consult with the installation manual packed with the product for complete details before installing.

Thermador Built-in Ovens may be placed in a wall-mounted or under-counter installation.

Thermador Single Ovens may also be installed below most Thermador Induction, Electric or Non-professional 36" Gas Cooktops. When installing below a Thermador Induction Cooktop, a minimum 1" air gap must be maintained between the bottom of the cooktop and the top of the oven. An electric or non-professional Thermador Gas Cooktop can be installed above a Thermador Single Built-in Oven as long as there is no contact between the bottom of the cooktop and the top of the oven. Thermador Single Built-in Ovens are designed and approved for installation with most Thermador Cooktops. **Refer to the cooktop section for additional specifications.**

For oven support, install 2 x 4's extending front to back flush with the bottom and the side of the opening. The supporting base must be well secured to the floor/cabinet and level.

When a Thermador Oven is installed at the end of a cabinet run, adjacent to a perpendicular wall or cabinet door, it is good practice to allow at least 1/4" space between the side of the oven and the wall or door.

For ease of installation, some oven doors may be removed to reduce the weight of the oven by 30 lbs. per door, before installing into the cabinet. Refer to the installation manual for details.

WARRANTY

Limited warranty parts and labor (2 year)
See page 306 for additional warranty details.

ELECTRICAL LOCATION

Refer to the appropriate installation diagram for details on conduit box location.

ELECTRICAL SPECIFICATIONS

Be sure your appliance is properly installed and grounded by a qualified technician. Installation, electrical connections and grounding must comply with all applicable local codes.

All built-in ovens below are dual rated, designed to be connected to either 240/208V AC, 60 Hz, 4-wire, single-phase power supply. Install a suitable conduit box (not furnished). An appropriately-sized, UL-listed conduit connector must be used to correctly attach the conduit to the junction box.

IMPORTANT

Local Codes may vary; installation, electrical connections and grounding must comply with all applicable local codes.

If local codes permit grounding through the electrical supply neutral, connect both the white neutral wire and the bare ground wire from the oven to the white neutral electrical supply wire.

A 4-wire connection is preferred, but where local codes permit, a 3-wire connection is also acceptable.

- ★ - SoftClose® door ensures ultra smooth closing of the oven door
- ★ - Massive Capacity – Largest oven cavity at 4.2 cu. ft. (overall AHAM)
- ★ - Fastest preheat in the luxury segment (around 7 minutes)
- ★ - Superfast 2-hour self clean mode – fastest on the market

PERFORMANCE

- True Convection offers precise airflow for cooking on multiple levels without flavor transfer (in both ovens)
- 3 Full Access® telescopic racks that hold up to 45 pounds and feature integrated easy-grip handles
- No preheat needed – Industry leading Speed Convection system reduces cooking time by 30%
- CookControl temperature probe
- Easy Cook® offers 20 pre-programmed recipes
- SoftLight – Powerful halogen light with automatic dimming
- 10-pass recessed broil element with 3,500 Watt
- 13 advanced cooking modes
- Advanced culinary modes – Warm, Proof and Dehydrate
- Fast Preheat available for 5 cooking modes
- Large oven door window for maximum viewing
- Timer offers automatic delay start mode
- Hidden bake element for easy cleaning
- Digital indicator shows progress of preheat cycle
- Six adjustable rack levels for multiple item cooking
- Star-K certified

DESIGN

- Side strips, manifold and exhaust baffle now in bold stainless steel design
- Modern angular design
- Premium glass touch control
- Striking blue full text display

27-Inch Oven Telescopic Rack

BUILT-IN OVENS 27-INCH DOUBLE

MED272JS

INSTALLATION OPTIONS

WALL-MOUNTED INSTALLATION

Thermador 27-inch Double Ovens may be installed in a wall cabinet that is a minimum of 24" deep and 27" wide. The cabinet base must be flat and capable of supporting a weight of at least 361 lbs. (164 kg).

Thermador 27-inch Double Ovens may also be installed above a Thermador Warming Drawer to create a convenient cooking center. Refer to the warming drawer section for additional specifications.

IMPORTANT

When a Thermador Oven is installed at the end of a cabinet run, adjacent to a perpendicular wall or cabinet door, it is good practice to allow at least 1/4" space between the side of the oven and the wall or door.

For oven support, install 2 x 4's extending front to back flush with the bottom and the side of the opening. The supporting base must be well secured to the floor/cabinet and level.

The cabinet base must be flat and capable of supporting a weight of at least 361 lbs. (164 kg) for a 27-inch double oven.

27-INCH DOUBLE OVEN

Door Handle Depth*

*Protrusion of handle from outer part of door. Does not include thickness of door

* Junction box may be installed above, below, or to the right of the unit within range of the power cable.

ACCESSORIES

TLSCPRCK30
30-Inch Oven Telescopic Rack

INSTALLATION OPTIONS

WALL-MOUNTED INSTALLATION

Thermador 30-inch Single Ovens may be installed in a wall cabinet that is a minimum of 24" deep and 30" wide. The cabinet base must be flat and capable of supporting a weight of at least 212 lbs. (96 kg).

UNDER-COUNTER INSTALLATION

Thermador 30-inch Single Ovens may be installed below most Thermador Induction, Electric or Non-professional Gas Cooktops. When installing below a Thermador 36" Induction Cooktop, a minimum 1" air gap must be maintained between the bottom of the cooktop and the top of the oven. An electric or non-professional Thermador Gas Cooktop can be installed above a Thermador Single Built-in Oven as long as there is no contact between the bottom of the cooktop and the top of the oven. Thermador Built-in Ovens are designed and approved for installation with most Thermador cooktops. **Refer to the cooktop section for additional specifications.**

Thermador 30-inch Single Ovens may also be installed above a Thermador warming drawer to create a convenient cooking center. Refer to the warming drawer section for additional specifications.

IMPORTANT

When a Thermador Oven is installed at the end of a cabinet run, adjacent to a perpendicular wall or cabinet door, it is good practice to allow at least 1/4" space between the side of the oven and the wall or door.

For oven support, install 2 x 4's extending front to back flush with the bottom and the side of the opening. The supporting base must be well secured to the floor/cabinet and level.

The cabinet base must be flat and capable of supporting a weight of at least 212 lbs. (96 kg) for a 30-inch single oven.

30-INCH SINGLE OVEN — WALL-MOUNTED

Door Handle Depth*

*Protrusion of handle from outer part of door. Does not include thickness of door

* For single ovens installed into a wall cabinet, the junction box may be located above or beneath the unit within reach of the power cord.

30-INCH SINGLE OVEN — UNDER-COUNTER

* Includes 3/4" (19 mm) base plate. For single ovens installed under a cabinet, the junction box should be located to the right of the unit with reach of the power cord.

BUILT-IN OVENS

30-INCH DOUBLE COMBINATION

PODM301J / MEDMC301JS / MEDMC301JP

INSTALLATION OPTIONS

WALL-MOUNTED INSTALLATION

Thermador 30-inch Double Combination Ovens may be installed in a wall cabinet that is a minimum of 24" deep and 30" wide. The cabinet base must be flat and capable of supporting a weight of at least 310 lbs. (141 kg).

IMPORTANT

When a Thermador Oven is installed at the end of a cabinet run, adjacent to a perpendicular wall or cabinet door, it is good practice to allow at least 1/4" space between the side of the oven and the wall or door.

For oven support, install 2 x 4's extending front to back flush with the bottom and the side of the opening. The supporting base must be well secured to the floor/cabinet and level.

The cabinet base must be flat and capable of supporting a weight of at least 310 lbs. (141 kg) for a 30-inch double combination oven.

PODMW301J

INNOVATION

- ★ - SoftClose® door ensures ultra smooth closing of the oven door
- ★ - Largest commercial style rotisserie with 12 pound capacity
- ★ - Maxbroil®—Largest, most powerful broil element on the market
- ★ - Massive Capacity—Largest oven cavity at 4.7 cu. ft. (overall AHAM)
- ★ - Fastest preheat in the luxury segment (around 7 minutes)
- ★ - Superfast 2-hour self clean mode—fastest on the market

PERFORMANCE

- True Convection offers precise airflow for cooking on multiple levels without flavor transfer
- 2 Full Access® telescopic racks that hold up to 45 pounds and feature integrated easy-grip handles
- No preheat needed—Industry leading Speed Convection system reduces cooking time by 30%
- CookControl temperature probe
- 12 advanced professional cooking modes
- SoftLight—Powerful halogen light with automatic dimming
- Advanced culinary modes—Warm, Proof and Dehydrate
- Fast Preheat available for 5 cooking modes
- Electronic oven control ensures precise heating
- Large oven door window for maximum viewing
- Timer offers automatic delay start mode
- Hidden bake element for easy cleaning
- Seven adjustable rack levels for multiple item cooking
- Star-K certified

DESIGN

- Side strips, manifold, exhaust baffle and chronometer now in bold stainless steel design
- Professional style chronometer
- Restaurant style stainless steel knobs and handle
- Bold chiseled professional design
- Blue electronic graphic display controls all timer functions
- See MCES for Microwave features
- See WD30JP for Warming Drawer features
